

What are Your Thoughts about E-Cigarettes and Vaping?

Join a **FOCUS GROUP** and
discuss what you know
and think about e-
cigarettes and vaping

**\$50 Gift Card for
Participating**

WHO: Students of Milton High School

WHERE AND WHEN:

**Thursday, November 21, 2019
4:00 PM – 5:30 PM
Milton High School
Room 2201**

HOW: Call **404-460-4795** to sign up!

Georgia State University is working with the Fulton County Health Department to learn more about your thoughts on e-cigarettes. They are holding focus groups to hear from you about what you know about e-cigarettes, what you think about them, and where you get your information on them. This is a research study.

During the focus groups, they will ask a group of up to **10 students** like you questions such as “What do you know about e-cigarettes?” “What type of e-cigarettes do you know about?” “Where did you first learn about e-cigarettes?” With permission from your parents, you could be eligible to participate in a 60-90 minute group talk to help us learn more about youth and vaping, and earn a \$50 gift card

If you are interested, sign up quickly because space is limited. You can sign up online at https://www.surveymonkey.com/r/Fulton_MILTON or call **404-460-4795**. Once you sign up, a facilitator from JSI, an organization working with Georgia State University will contact you and your parents about the details.

Participation is completely voluntary and confidential. There is no pressure from Milton High School to get involved in this project.
