

# ENERGY WORKS

America's oil and natural gas industry currently supports 9.8 million jobs throughout the economy.<sup>1</sup> Some in Congress are proposing and considering targeted tax increases for only U.S. oil and gas companies. The impact of such could compromise these high-paying union and non-union jobs, threaten our energy security and decrease American companies competitiveness with foreign based operations.

The people of  
**NEW HAMPSHIRE**

**are part of the oil and natural gas industry.**

541,444	Total employment for all industries and sectors in NH
\$51,804	Average annual salary in NH across all industries and sectors
24,900	Direct, indirect, induced jobs provided by oil & gas industry in NH
\$65,629	Average annual non-gas station oil & gas industry salary in NH
\$2.3 Billion	Contribution to NH economy or 3.3 percent of NH GDP
32 <sup>nd</sup>	New Hampshire's oil production rank in the U.S.
33 <sup>rd</sup>	New Hampshire's natural gas production rank in the U.S.

Sources: Bureau of Labor Statistics, *Quarterly Census of Employment and Wages*, Accessed 6/25/2015, Energy Information Administration, and "The Economic Impacts of the oil and natural gas industry on the U.S. economy in 2011: employment, labor income and value added," PriceWaterhouseCoopers, July 2013. Based on 2011 IMPLAN database.

A Harris Poll conducted on election night – November 2014 – of 827 voters across the country who had voted earlier that day **found that 65% believe that increasing taxes on oil and natural gas companies hurts everyone because those tax increases could drive up energy costs for consumers.** In addition, 57% of actual voters oppose changes in the Federal tax laws that could decrease investment in energy production and reduce energy development here in the U.S.<sup>2</sup>
